

QUESTIONS AND ANSWERS RELATED TO TENDER NY-B07

Design and implement two rounds pre-departure training addressed to selected candidates

Project: NET-Work You - Creation of a Skills Network to Increase Employment Opportunities for Young Egyptians in the Green Job Sector

Date: 06.05.2026

N°	QUESTIONS	ANSWERS
1	Is there a pre-defined distribution of the 150 trainees across the technical LOTs (TP1–TP4), or will the allocation be based on trainees' selection and assessment results?	The trainees have already been identified, but their distribution across the training is unknown to date. In general, around 20 to 25 trainees per training program can be considered.
2	Is it possible for a trainee to change their technical track after the training has started, or is the selection considered final upon assignment?	In principle this is not possible, since all trainees have gone through a selection process.
3	Is there a specific list of Egyptian accredited authorities responsible for stamping the certificates, or is the implementing partner fully responsible for securing the accreditation?	The training provider will be responsible to get all the accreditation for the certificates and to be stamped by the Ministry of Foreign Affairs (MoFA).
4	Will bidders be provided with the final Skill Matrix for each LOT prior to preparing the detailed curriculum?	Yes, we will for TP1,2,3,4, and 5, but not for Italian and English languages.
5	Is there a mandatory standardized curriculum, or is the full content design left to the discretion of the implementing partner?	The project has worked on the main structure of the training programs. However the training provider is responsible for developing the detailed training programs.
